

Product Manager

Full-Time (f/m/d)

Take off as an #ocuNaut and become part of our rising team.

ABOUT OCULAVIS

With us, you can do more than just a job. We are proud to be one of the leading B2B scale-ups in Europe which has created sustainable added value for over 200 customers since 2016. But it is by far not all – with our multiple award-winning software solution, we prevent business trips of thousands of technicians worldwide and thus contribute to climate protection!

Our cutting-edge technologies, mobile apps, mixed reality, and AI algorithms are revolutionizing the way manufacturing companies can share their technical expertise anytime without the need to travel. Our technologies increase productivity, help to avoid unnecessary travel costs, and reduce overall carbon footprint.

You work in a committed team that meets new challenges and celebrates success altogether. You will be also given a great deal of responsibility and will be able to make a significant contribution to the company's success.

Leverage your career at oculavis and help us fulfill our mission! Become the next #ocuNaut!

YOUR IMPACT

- You manage research and development projects with our renowned customers.
- You plan and execute requirements workshops with our development partners.
- As a Product Owner in Scrum projects, you are responsible for parts of the user journey of our Smart Service & Connected Worker platform oculavis SHARE.
- You carry out market and competitor analyses.
- You precisely write user stories, develop innovative product visions, and prioritize the backlog items.
- You present our platform, product ideas, and further developments to internal and external stakeholders.

YOUR SKILLS

- You have a degree in (business) informatics, industrial engineering, mechanical engineering or similar.
- You have leadership skills, are goal orientation, and assertive.
- Your technical understanding and interest enable you to communicate effectively with development colleagues and evaluate technical options.
- You have fluent written and spoken German & English skills.

YOUR WORKPLACE

- You work with Miro, PowerPoint, Jira Software, Product Discovery, and Confluence.
- You are equipped with high-performance hardware.

YOUR WIN

Work with us

30 vacation days, individual and flexible working hours, remote work, workation, subsidy for the Deutschland-Ticket and company pension plan.

Close cooperation with the founders and a mentor's support during the first weeks of work.

Our Culture

International team from 15+ nationalities with flat hierarchy and fast decision-making processes. We are on a first-name basis and appreciate mutual feedback.

After Work Activities

After work, we get together to discuss books, play board games, bowling, table soccer or darts.

Team Events

Our summer & winter parties as well as regular BBQ events on our roof terrace are awaiting you.

Stay healthy

Keep your energy levels high with healthy snacks and weekly back & neck hacks.
